

Resistance type valve

Flow unit

Flow Units are resistance valves used for an intermittent delivery type systems.

Specifications

Normal working pressure	Under 0.8 MPa
-------------------------	---------------

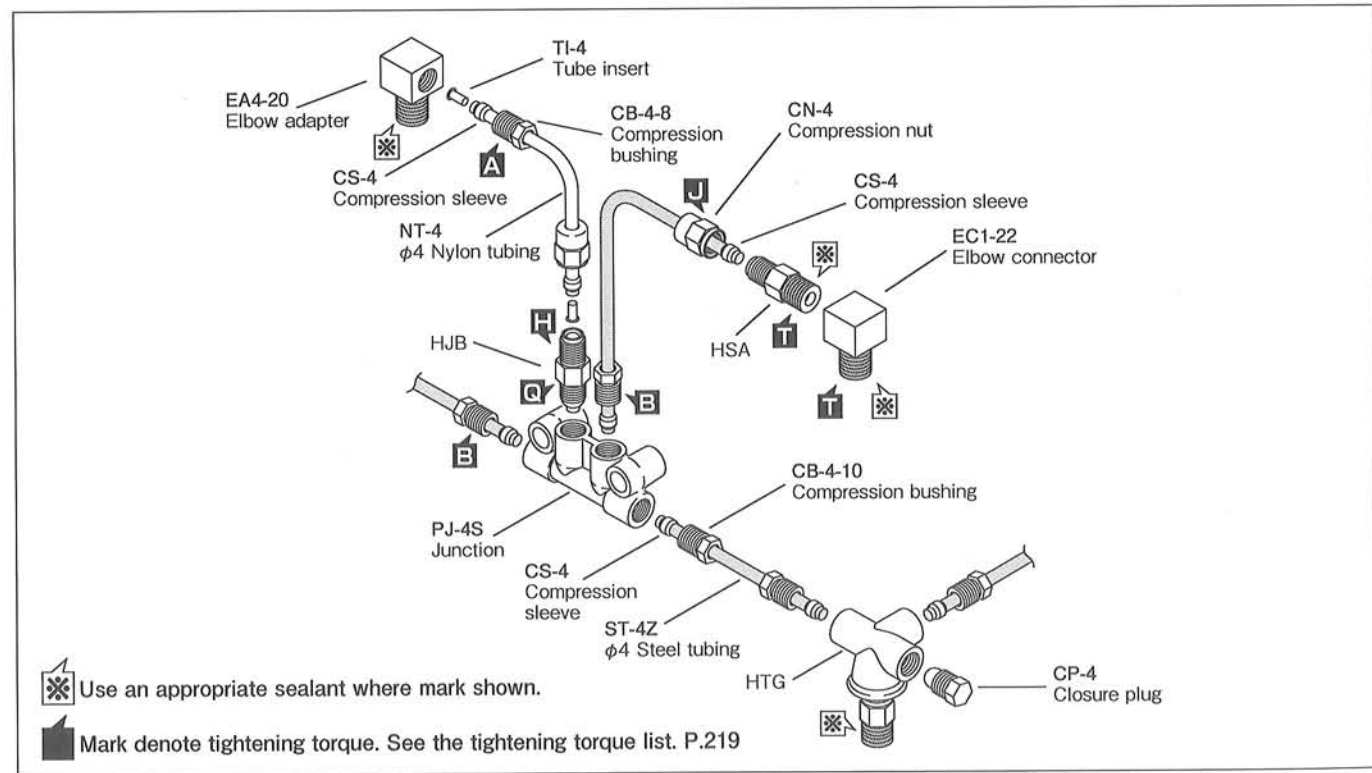

Internal construction

Directions for use

- Please conform the flow direction and thread size to connect to the junction.

Tubing connection (This is just an example.)

RoHS compliant products are also available.
Please contact us for details.

SLF Single Line Resistance
Compressor System for Small
Machines with intermittent delivery
